COVID-19 VACCINATIONS CONTINUE AT LITTLE METRA, COLUMBUS

March 22, 2021 – Columbus, Montana. Stillwater Billings Clinic and Public Health are teaming up to get COVID-19 vaccines administered to the public as allocations are received from the state.

COVID-19 Vaccination Clinics will take place on Thursday, March 25, and Friday, March 26, 9 a.m. to 2 p.m., at the Little Metra in Columbus. Moderna vaccines will be offered to all people, ages 18 and over but those who fall into the 60 and older category will take precedence. The COVID-19 vaccination cannot be given to anyone who has received another vaccination within the last 14 days.

If you are attending this clinic, please wear a short-sleeved shirt if possible (for easier administration), bring current insurance card, and allow for an additional 15 minute wait post-vaccinations to be monitored for potential adverse reactions.

As we work to vaccinate the Stillwater community, we ask that you continue to practice safe social distancing, stay home when not feeling well, continue proper handwashing, and wear masks when possible.
